Notes

The revised edition of the Learning Accomplishment Profile Diagnostic Standardized assessment (LAP-D) is a developmental assessment for children functioning in the 30-72 month age range. The assessment is in four developmental areas or domains; each domain is divided into two subscales.

The subscales from the LAP-D are: Fine Motor Manipulation (FM), Fine Motor Writing (FW), Cognitive Matching (CM), Cognitive Counting (CC), Language Naming (LN), Language Comprehension (LC), Gross Motor Body Movement (GO), and Gross Motor Object Movement (GB). These items are distinguished by the prefix D- before the item number.

The LAP-D and the alignment also use items from the Learning Accomplishment Profile – Third Edition (LAP-3) for the Personal/Social (PS) and Self-Help (SH) domains. The LAP-3 is a criterion-referenced instruments that provides a systematic method for assessing young children from 36 through age 72 months.
