If the student only knows a few letters, ask the student to point and identify the known letters.</p> <p><u>Alphabet Production</u> After the student is able to identify at least half of the upper and lower case letters, ask the student to write each lower and upper case letter. You do not have to follow this order. You could start with the letters in the student's name.</p> <p><u>Student Alphabet Pages</u> As the student is able to identify (name) and write the letters, allow the student to color the corresponding square. You can repeat the word twice. Ask student to attempt each word, even if they are not sure how to spell it correctly.</p>

		CC.K.R.F.3.b Phonics and Word Recognition: Associate the long and short sounds with the common spellings (graphemes) for the five major vowels.			The chart above allows you to mark which of the letters the student correctly writes during three different monitoring sessions. Typically, students follow the developmental pattern listed on the top of the chart. Students can be administered this short assessment individually or in small groups. In order to use this as a reliable tool in the spring, do not teach these words to the student or give the correct spelling after the first administration.
Fluency	Rapid Naming	CC.K.R.F.3.c Phonics and Word Recognition: Read common high-frequency words by sight. (e.g., the, of, to, you, she, my, is, are, do, does). If you choose to use progress monitoring folders, as a student is able to read a word, ask the student to draw a checkmark underneath the word on the chart. Unlike the spelling chart, these words should be used for instructional purposes.
